

United Metal Products Material Certification

United Metal Products material meets or exceeds the following standards

AISI North American Specification for Cold-Formed Steel Structural Members

Structural Framing Specification

ASTM C955 – Load bearing steel framing

ASTM C1007 – Installation

ASTM A1003/A653 – Material specification for steel sheet requirement

Drywall Non-Load Bearing Framing Specification

ASTM C645 – Non-Structural steel framing members

ASTM C754 – Installation

Steel and Coating Specification

ASTM A924

ASTM A653

ASTM A1003

Additional Code Approvals

ICC-ES ESR-3064P

IAPMO UES 0313

IAPMO UES 0283

Code Compliance Certification Program

LEED Credits for Cold-Formed Steel Framing Projects

Credit MR 2.1/2.2 – Construction Waste Management (Up to 2 Points)

Credit MR 4.1/4.2 – Recycled Content Credit Intent (2 Points)

Credit MR 5.1/5.2 – Regional Materials (2 Points)
